

The days in the pandemic are all the same. I usually can't tell them apart. Yet, usually I have fun on the pandemic days. Get up at 7:45, shower, breakfast, brush teeth, usually I have some time to look at the media, then school. I start school at 9, end at 4 ish. Clubs until 5, then i get some time to do what i like, for example watch youtube. Yeah. at 7 i have dinner, then back to youtube until 8:30. Then bed. It's usually like this everyday. And i like it. It's peaceful. What's not fun though is when I go outside for a walk. I have to wear a mask. I know it's necessary, but it's not fun. So that is basically my daily routine.
