

Lately all I have been doing is wondering about the ruined city of rapture. Looking for my little sister who I am told I have to protect. Apparently the only reason why I live is to look for my little sister to make sure none of the people extract her for adam. You see my little sister has been implanted a sea slug inside of her body and has a lot of adam. Splicers are desperately trying to get at her and harvest her for adam. This is what I look like.

Pretty nice right and this is my little sister.

Pretty nice right well that is all i have to say goodbye.

And now a story from the perspective of a splicer.

HEY ANDREW WHERE'S MY PUDDING I HAVE BEEN WAITING FOR 5 YEARS ANDREW  
SO WHERE IS MY PUDDING.

And so ends the story of a splicer thank you very much for listening.
